EXPERIENCE

Dan Turpin is a Senior Building Consultant with more than 20 years in the insurance restoration industry and hands on field experience as a residential, multifamily, and commercial contractor. Dan's experience offers a thorough understanding of construction components and various methods. Dan has estimated and managed countless projects involving heavy marine construction, commercial high-rise buildings, industrial facilities, major shopping malls, medical facilities, casinos, and assisted living facilities as well as many school and college campuses.

Dan's professional services include initial damage assessment, scope preparation, inventory contents review, invoice assurance, and construction management.
